

Soft And Supportive Sleep Through Chemistry

Where Comfort Meets Innovation

A Plush And Deeply Supportive Memory Foam

Allay™ Memory is formulated to strike a balance of support and soft, cloud-like comfort. With Allay™, you experience a soft and luxurious memory foam as you drift off to sleep. Our experts know that absorbing pressure for a comfortable and restful nights sleep makes all the difference in your wellness. Unlike in traditional memory foams, Allay™ Memory is formulated to cradle your body, relieving pressure points by offering deep support that responds to your body type. Allay™ Memory also has low motion transfer. When your partner moves, Allay™ Memory absorbs the motion so you can sleep soundly, undisturbed.

Allay™ Memory provides the perfect balance between soft and supportive, producing a better night's sleep through chemistry.

PEAK COMFORT

Like sleeping on a cloud, Allay™ Memory is soft and comfortable.

LOW MOTION TRANSFER

Allay™ reduces motion transfer, allowing you to sleep soundly even if your partner moves.

Features & Benefits

SUPPORT

Allay™ Memory offers incredible comfort married with deep support. It responds to your body type providing a unique balance of support and comfort.

TECHNOLOGY

Allay™ Memory is formulated for a soft, plush feel for maximum comfort, without sacrificing support. It responds to the shape of your body and will not develop low spots with use.

Tear Resistance (lbs/sq. in.): > 0.50

Tensile Strength (lbs/sq. in.): > 6.0

Compression Set (@90% comp.): < 10%

Hysteresis Loss: < 20%

Air Flow: > 0.10

Tg: 50°F

Our Sustainability Promise

Future Foam is committed to reducing the impact on our environment. Helping the environment is ingrained in our culture and how we do business, and is reflected in the products we innovate.

310 LBS/MIN DIVERTED

We've recycled over 2 billion lbs. of post industrial foam scrap since 2011.

GROWING LINE OF SUSTAINABLE PRODUCTS

Our team of chemists are constantly working on sustainable foam products for the future.
