

Futuratex with CU₂₉Gel™

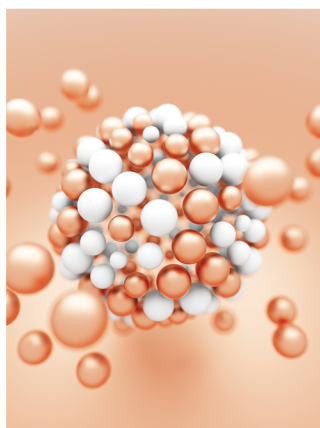

Features & Benefits

Support

Our high airflow copper infused foam sleeps cooler than traditional memory foams, providing excellent comfort and sleep performance across a wide temperature range.

Provides uniform support and alleviates pressure points.

Technology

High density and provides exceptional durability. Ideal for roll packing applications.

Firmness and airflow is optimized for CU₂₉Gel™ to be used as the top layer of a mattress or a mattress topper application.

Our latex enhanced foam feels like latex but has better tensile and tear strength, better pounding fatigue characteristics, and a better support factor.

Sustainability

CU₂₉Gel™ is made without ozone depleters, formaldehyde, or phthalates.

Low VOC (Volatile Organic Compound) emissions for indoor air quality (less than 0.5 parts per million).

Can be recycled after use to reduce the environmental impact.

Made in the U.S.A.
CertiPUR-US certified.
