

Future Foam® Fiber

Future Foam® is proud to offer high quality fiber products to fit the needs of our market. Our focus on innovation, coupled with a Spirit of Continuous Improvement drives us to think outside the box to fill the needs of our customers.

Future Foam® Fiber caters to the bedding and furniture industries, providing comfort and support in traditional furniture applications as well as in hospital beds, cribs, and regular bedding.

We currently offer products in a wide range of lofts, widths and weights while maintaining tight industry standards.

CAPABILITIES

Thickness : 3/8" - 6"

Widths : 12" - 200"

Weight/Ounces : 0.75oz - 11oz

Structure : High Loft and Densified

Max Product Weight : 40#

Our Sustainability Promise

Future Foam® cares about the environment and we are always looking for new ways to process our materials as effectively as possible. We have created a recycling system that not only allows us to reclaim our process material but have created an opportunity for our customers as well. Introducing PCF (Post Consumer Fiber) into our process is an opportunity to take customer's process waste back into the products to reduce the landfill need.

310 LBS/MIN DIVERTED

We've recycled over 2 billion
lbs. of post industrial foam
scrap since 2011.

GROWING LINE OF SUSTAINABLE PRODUCTS

Our team of chemists are
constantly working on
sustainable foam products
for the future.
