

Hyper-Dri®

At Future Foam®, we're committed to crafting high-performance reticulated foam designed for the demands of outdoor living. Fueled by innovation and a Spirit of Continuous Improvement, we design solutions that meet and exceed customer expectations.

Hyper-Dri® foam features an open-cell, reticulated structure that allows water to drain freely, promoting breathability and quick drying. This design significantly reduces the potential for mold and mildew, while an integrated antimicrobial additive provides lasting protection across all grades.

Ideal for outdoor furniture and marine seating, Hyper-Dri® delivers the comfort you expect with the durability the environment demands.

CAPABILITIES

Density (lbs./Cu. Ft.): 1.7 +/- 0.10

Available IFDs @25% (lbs. / 50 sq. in.): 18, 24, 30, 40, 50, 60 +/- 2.0

Available Feel: Extra-Soft, Soft, Medium, Medium-Firm, Firm, Extra-Firm

Antimicrobial: Passes ASTM G21 and Pink Stain ASTM E3364-22

Thermally Reticulated

Our Sustainability Promise

Future Foam® cares about the environment and we are always looking for new ways to process our materials as effectively as possible. We have created a recycling system that not only allows us to reclaim our process material but have created an opportunity for our customers as well.

310 LBS/MIN DIVERTED

We've recycled over 2 billion lbs. of post industrial foam scrap since 2011.

GROWING LINE OF SUSTAINABLE PRODUCTS

Our team of chemists are constantly working on sustainable foam products for the future.
